Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/575,954	Applicant(s) SHIN, KAP SOO	
	Examiner JASON HECKERT	Art Unit 1792	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 10-12 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. In claims 10-12, "the supporting rib" lacks antecedent basis. Furthermore, claim 12 recites that the supporting rib is provided at an inner circumference, yet this is not how it is described in the specification. Examiner believes applicant is actually referring to the interference prevention rib. Thus, claim 12 is impossible to examine on the merits.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-20 rejected under 35 U.S.C. 102(b) as being anticipated by Korean Publication 10-2004-0023108 ('108). '108 discloses a drain hose fixing apparatus for a dishwashing machine. Shown clearly in the figures is a holder body 342 with at least one hook 342a and an interference preventing rib containing a plurality of hook steps 346. Hook 342a is formed at the top of the holder body, and hooks 342b are shown on

Art Unit: 1792

the side of the holder body. The hook includes flexible grooves (figure 6). Item 344 reads on a supporting rib extending outward from the holder body. The interference preventing rib is provided at an inner circumference of the holder body and projects rearward (figure 6). The holder body and interference preventing rib are shown as having the same curvature. The device of '108 is used within a washing machine with a base, penetration hole, drain hose, and sump (figure 5). A sidewall 306 is inserted between the hook and supporting rib. The holder is inserted into a guide groove (figure 6) formed in the hole in the wall. Also shown is a drain hose supporting projection (figure 6). The supporting projection is concave, and the assembly is inserted from an inner to an outer side of the base (figure 6). The drain hose can be mounted on rear or side walls, and the hook 342a is cut to have an elastic force. The term "distant" can refer to any distance, and carries little patentable weight. That said, hook 342a can be considered distant from the drain hose.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JASON HECKERT whose telephone number is (571)272-2702. The examiner can normally be reached on Mon. to Friday, 9:00 - 5:30.
